Is your organization 501c3*? Yes	No	*IRS documentation	required		
Does your organization meet the minimum requirement of 200 confirmed applicants? Yes No					
Date of application					

Background Plates

Plates that support a cause and have a design on the plate different from the standard blue and gold Delaware plate. The design is intended to represent the specific cause or organization and is created with a reflective backing. Background plates are restricted to passenger vehicles or trucks with a 26,000 lb. or less manufacturer's gross vehicle weight rating. These plates use the normal issued registration number assigned to the vehicle or an approved vanity. Background plates are generally a one-time fee charged at the time of order, and a portion of the fee goes to fund the cause. International Registration Plan (IRP) registered vehicles are not authorized to display these specialty plates.

Organizational Plates

Plates for members or former members of a certain group or organization. Specific eligibility restrictions apply and are determined by the organization. The plate numbers are controlled, tracked, and assigned by the organization. These plates are for non-profit, school/college/university, and military organizations. Organizational plates are restricted to passenger vehicles or trucks with a manufacturer's gross vehicle weight rating of under 10,000 lbs. There is a one-time administration fee of \$10.00 for each special license plate. Organizations may set an additional fee to apply for the plate. IRS letter 947 is required to be submitted for tax status verification. The organization will supply applications to their members and submit completed documents to the DMV to issue plates. Timely notification must be provided to the DMV regarding members who may fall out of good standing.
